

# IEEE International Conference on Acoustics, Speech, and Signal Processing

March 5-9, 2017 New Orleans, USA  
*Internet of Signals*

## Call for Demo Proposals

Continuing in the tradition, the IEEE ICASSP2017 is calling for proposals for a demos that will be held during the conference. The demo event is analog to the previous years' show & tell event that is consist of demonstrations of innovations done by research and engineering groups in the field with in industry, academia and governmental institutes. The demonstrations can be related to any of the technical areas of ICASSP, as defined in the Call for Papers of ICASSP2017.

The Demo sessions will provide a forum to present and discuss prototypes, industry demonstrations of new applications and techniques, practical implementations, research test-beds and demonstrations, recent research/implementation results, and student senior year projects. One of the key goals of this conference is to foster collaboration between industry and academia. Hence, participation of researchers/senior year students/developers is especially encouraged.

**Demonstration submissions will also be on the basis of a short paper/abstract describing a prototype system and/or an interesting implementation concept as well as the merits of the proposed ideas. They should also include:**

- The space requirements and/or any other equipment-specific requirements.
- Proposals will be evaluated mainly based on their potential to stimulate interesting discussions, exchange of ideas and promote collaborations.
- Submissions should not be more than two pages (*preferably IEEE conference format, 2-column*) in length.
- The documents must contain the authors' names, affiliations, and contact information and the designated corresponding author.

*Accepted demos will have a space in the demo session room to exhibit their demos and describe their work in discussions with interested attendees. Moreover, the abstract of the accepted posters/demos will appear in IEEE Xplore. Conference policy allows accepted demos to have a reduced registration.*

### Important Deadlines

- Demo proposals due: **November 8<sup>th</sup>, 2016**
- Notification of acceptance of demo: **November 30<sup>th</sup>, 2016**

### Submission

Proposals and inquiries should be sent via e-mail in PDF to the Demo chair:

**Yen-Kuang Chen and Nam Ling**

([demos@ieee-icassp2017.org](mailto:demos@ieee-icassp2017.org))

By the **November 8<sup>th</sup>, 2016** deadline.
